

PCBA Candidate Questions

Huron-Kinloss 2022 Municipal Election

The following 5 questions are being sent to all candidates running for office in Huron-Kinloss.

The results will be published on our website, on social media, and will be distributed to the other Beach Associations in Huron-Kinloss. They will also be sent to the 2 boat clubs in Point Clark.

We would appreciate your answers by Sunday, September 18 – your final document may be in Word, sent as a PDF, or simply put into an email.

Please send your replies to pcba.president.21to23@gmail.com.

For each of the following questions, please try to limit your answers to 100 words.

QUESTION (1)

The Point Clark Beach Association commends anyone who puts their name forward for public office. Congratulations for this first step.

- Why should we vote for you?

QUESTION (2)

Point Clark has very much become an Active Transportation area. Walking and biking are undertaken throughout the community.

- Do you believe the Township should invest in creating and improving active transportation trail systems in Point Clark?
- Would you be in favour of investigating a bridge between the Point Clark and Lurgan Beach communities?

QUESTION (3)

Bylaw enforcement remains top of mind for many on the lakeshore. The method of handling is currently by complaint.

- Due to the nature of bylaw complaints, particularly on weekends, should the Township consider a more proactive approach to bylaw enforcement?

QUESTION (4)

Taxes from the lakeshore area make up a substantial portion of revenue for the Township of Huron-Kinloss.

- Do you feel services and facilities available to the lakeshore area reflects this reality?
- Do you believe Emergency Services such as fire and paramedics to be adequate for the growing communities along the lakeshore?

QUESTION (5)

Drinking water quality in the Point Clark area has become an issue of some concern to the community. And with the continued rapid expansion of the community, there will be continued pressure on this important system.

- Do you believe there should be an upgrade or change in treatment to the water system for Point Clark to ensure long term safe clean drinking water?

Thank you.
